DELAWARE REVAMPS NOTIFICATION SERVICES WEBSITE

The State of Delaware is excited to introduce a revamped notification system, Delaware Notification Service (DNS), which has features such as additional delivery methods on some subscriptions including telephone calls, text messages and fax. Implementation of the modified system will be rolled out in two phases.

October 2011

Phase I Subscriptions

School Closings
School Announcements
Sex Offender's Registry
Delaware Public Archives
Cyber Security

November 2011

Phase II Subscriptions

Delaware Code
Legislative Notifications
Register of Regulations
Vendor Notifications

What do I need to know about Phase I?

- Conversion of subscriptions from the current website to the new website for Phase I subscriptions will occur between September 15th and October 9th, 2011.
- Current subscribers will receive an email instructing them to activate their account on the new website.
- The new website will begin sending notifications for Phase I subscriptions starting October 10, 2011.
- It is important for subscription selections on the current website match the new website so there will be no lapse in any notifications from your subscriptions.

What do I need to do for Phase I?

EXISTING SUBSCRIBERS

- Activate your account in the new website by accessing the link on the current website.
- If you have made changes to any Phase I subscriptions you must make the same changes to your subscription on the new website by accessing the link on the current website.

NEW SUBSCRIBERS

- If you have become a new subscriber on the current website between September 15th and October 10th, 2011, you must create a new account on the new website by accessing <https://de.blackboardconnect.com>.

What about Phase II?

Phase II subscription notifications will continue to be sent from the current website until November 30, 2011. Please continue to visit the current website for additional information regarding Phase II subscriptions as that date approaches.
